- 3**
- Charger comes 13 ft. in length.

Charged

Recharging

Battery Smart Charger Indicator Light

Available on Exclusive Patented Opera System

- To eliminate the side light gaps the Miracle Fit Light Gap solution will be included at NO CHARGE for these applications and the Miracle Fit should be positioned behind the fabric of the back shade.

Made in Canada

AA - Motor with switch on wand with transformer

Motor with transformer that plugs into your standard house wall outlet with switch in a wand featuring our **Patent Pending dome shaped peel and stick wire**. Simple as plugging in a table lamp or TV.

1 Motor with limit switch inside shade.

Quick Connect System

2 Our Patent Pending dome shaped peel and stick wire that is dome shaped in an off white colour that is usually placed behind the shade against the wall so that it blends in and becomes almost invisible. This wire looks like a trim on the wall and seems like decoration so that you do not need a professional trades person to fish the wire through the drywall to hide it. Easy to use and aesthetically appealing.

Comes in an 18 ft. roll.

3 Easy to use wand switch 3 button system: Up, Down and Stop. Press button and walk away.

Wand with switch length
 21" wand with switch
 39" wand with switch
 51" wand with switch

4 Transformer and Patent pending dome shaped wire with peel and stick wire from motor to transformer.

Available on Exclusive Patented Opera System

BB - Motor with switch on wand with external battery pack

Battery tube behind shade.

1 Battery Tube, which holds 8 AA Batteries, is attached to the back of the cassette. The batteries should last 6-12 months before being replaced depending on usage.

2 Motor with limit switch inside shade.

3 Easy to use wand switch 3 button system: Up, Down and Stop. Press button and walk away.

Available on Exclusive Patented Opera System
